M. THACKERAY'S NEW STORY, with all the original assessions, is continued in this Number of HARPER'S NEW OF THLY MAGAZINE. It is here printed simultaneously the its publication in Emaison, from advance sheets furnished the Publishers by the Author. The admisers of "Pendennis" 4 "The Newcomes," who, in the opening chapters, renewed sit acquaintance with their friends, Arthur Pendennis, Laura, d the Major, will find the circle of favoritos enlarged in the seent Number. recent Number.

The Publishers have also made arrangements with the Author for Adam Beden and "The Mill on the Flots," for a New story for the Magazine.

A Series of Illustrated Papers, describing Life, Character, and seenery, in every part of the American Confinent, from Labrato to Oregon, prepared from pursonal experience by favorite authors and Artists, is in preparation, and will appear from time of time.

A complete Set of HARPER's MAGAZINE will be a desirable as A complete Set of HARPER'S MAGALIER will be a desirable acquisition to any public or private library. Beeddes the Tales, Poems, and Essays which form the leading feathers of Periodical Literature, each Number of the Magazine has contained articles of permanent value. Nearly Two Handred Papers, illustrated by more than Two Thomsand Engravings, have been devoted to American History, Biography, Indontry, Character, and Sewnery. Each of our great Agricultural Staples has been made the subject of claborate articles. The results of the explorations of travelers in regions heretofore undescribed have been carefully epitomized. The "Literary Notices" embedy impartial estimates of mere than two thousand books comprising almost every work of any value which has been issued from the American press during the last ten years. We are gratified to learn that this charming monthly which fulfills so admirably the high requisites of a home magarine, is rapidly increasing in circulation. This angure well for the improving taste and increasing good sense of those who are blessed with families. However it may lack the learning, depth, and scholarly finish of some of our larger monthlies, it is interfor to none of them in freshness, variety, or vivacity; and for pure and lofty movality, refinement and delibeacy of feeling, practical good sense, and a wreet, gental, Christian spirit, it is not extravagant to say that it is reperior to them all. It cannot fall to exert a healthy influence over the families that are bleet with its mouthly visits.—[New York Evening Post.

HOMES for the INDUSTRIOUS IN THE

G'RDEN STATE OF THE WEST.

THE ILLINOIS CENTRAL RAILROAD COMPANY HAVE FOR SALE 1,900,000 ACRES

RICH FARMING LANDS. IN TRACTS OF FORTY ACRES AND UPWARD,

LONG CREDIT AND AT LOW PRICES.

Which, as they will perceive, will enable them, by proper energy, perceverance and industry, to provide comfortable and permanent homes for themselves and families, with, comparatively speaking, very little capital:

LANDS OF ILLINOIS.

No State in the Valley of the Mississippi offers so great an in-ducement to the settler as the State of Illinois. There is no por-tion of the world where all of the conditions of climate and soliso-admirably combine to produce those two great staples, corn and wheat, as the prairies of Illinois.

RICH ROLLING PRAIRIE LANDS.

The deep rich learn of the prairies is cultivated with such wonderful facility that the farmers of the Eastern and Middle States are moving to Illinois in great numbers. The area of Illinois is about equal to that of England, and the sell is so rich that it will support twenty millions of people.

These lands are contiguous to a Railroad 700 miles ju length, which connects with other roads, and navigable lakes and rivers, thus affording an unbroken communication with the Eastern and Southern markets. APPLICATION OF CAPITAL.

Thus far capital and labor have been applied to developing the soil; the great resource of the State in Coal and from are almost untouched; the invertable rule that the mechanic arts from the best where food and feel are cheaper, will follow at an early day in illinois; and in the course of the next ten years the matural laws and necessities of the case warrant he belief that at natural laws and necessities of the case warrant the belief that a cast FIVE HUNDRED THOUSAND PEOPLE will be en

Over \$100,000,000 of private capital have been expended on the railroads system of illinois. Inasmuch as part of the income from several of these works, with a valuable public fond in lands, go to diminish the State expenses, the taxes are light, and must, consequently, every day decrease.

The State Debt is only \$10,105,398 14, and within the last three years it has been reduced \$2,850,746,80; and we may reasonally expect that in ten years it will become extinct. PRESENT POPULATION.

AGRICULTURAL PRODUCTS. The agricultural products of Illinois are greater than those of any other State. The products sent out during the past year exceeded 1,500,000 tuns. The wheat crop of 1899 approaches 25 00,000 bushels, while the corn crop yields not less than 140,000,000 bushels.

Nowhere can the industrious farmer secure such immediate results for his labor as upon these prairie soils, they being composed of a deep, rich loam, the fertility of which is unsurpassed by any on the globe.

They sell only to actual cultivators and every contract contains a greement to cultivate. The road has been constructed through population of the forty-nine counties through which it passes was only 335,598 since which, 479 293 have been added

EVIDENCES OF PROSPERITY. As an evidence of the thrift of the people, it may be stated that 600,000 tuns of freight, including 3,600,000 bushels of grain, and 250,000 barrels of flour, were forwarded over the line last

Mechanics and Working Men will find the Free-School systems endouraged by the State, and endowed with a large revenue for the support of schools. Their children can live in sight of the Church and School-House, and gow up with the prosperity of the leading State in the great Western Emples. PRICES AND TERMS OF PAYMENT.

The prices of these lands vary from \$6 to \$25 per sere, according to location, quality, &c. First-class farming lands sell for about \$10 or \$12 per acre, and the relative expense of subduing prairie land as compared with wood and is in the ratio of 1 to 10 in favor of the former. The terms of sale for the bulk of these lands will be ONE YEAR'S INTEREST IN ADVANCE,

TWENTY PER CENT WILL BE DEDUCTED

Ellioft, Daniel Lord, Daniel Lord, Chairman of the Miller of the Seth Berney, Chas. W. Ellioft, Lendon, It has become our imperative duty to urge upon the public stendion the fact that over 40,000 of our fellow elicines in Kansas are now in imminent danger of starving. We have the evidence from all cources—from Gen. Pomeroy. Chairman of the Territorial Rellef Committee, from the columns of nearly every newspaper there of all shades of politica—from our own reliable agent who has just returned. There is no doubt of the misery—terrible wide-spread, desiructive.

We have evidence that whole families have already died of starvation; and that thousands more must lie down discouraged, and die of want and disease consequent upon it, unless prompt and thorough sid is at once supplied. Cengress is now attempting to sustain the starving Indians, but our 40,000 fellow-countrymen—men, women, and children—can neither get away from the desolation, not borrow, not beg. Their only dependence is upon as who have never knewn hunger.

They must be sustained. Will you help us to help them?
To assure you that whatever you do will reach them, we state that in every destinate township is a Relief Committee, these are represented by the Territorial Committee as follows:

S. C. Pomerov, Ackhosen W. W. Gurrang, Brown Country.

Gen. Fomeroy is Chairman, and at Atchison devotes his whole time and energy, with assistants, to the receipt and distribution of all contributions of food and dething, all of which are delivered upon requisitions of Town Committees, and are distributed through them. This organization is prompt, thorough, and effective, and we advise the sending of supplies through it. Money and diching are needed from us; food can be got in the West.

The mems of our Committee appear at the head of this appeal, and we hope will be sufficient to induce cooperation. Our Treasurer is John E. Williams, President of the Mctropolitan Bank, New York City. All money sent to him will be applied to the payment of Gen Pomeroy's drafts, on account of reights and sacks. We appeal to you all, by every dictate of humanity, of honor, and of public good, to unite with us in alleviating this great calamity. There is no time to be lost.

First: We ask individuals, everywhere, to contribute at once, and to urge it upon their friends and neighbors.

Second: We appeal to all churches and organized bodies, to act promptly, generously, and efficiently.

Third. We urge upon every Govarson or Event State immediately to bring this matter to the attention of their Legisla tures and people. Our last statistics show that nearly \$200,000 in needed within the coming fortuleth, to apply this people with seed for Spring planting. It can only be formiched by State action. Every consideration of interest, also, demands that this new State should be enabled to hecome self-sustating productive, and eventually rich—thus to fulfill her destiny, and to help others as we are now helping her.

We ask, therefore, every Legislature to do as they would have oth
